***Response to Amendment***

1. The amendment received 8/16/05 has been entered in full. Due to the amendment the 112 rejections and the prior art rejections have been withdrawn.

***Allowable Subject Matter***

2. Claims 1-10,21-24, and 26-27 are allowed.

3. The following is an examiner's statement of reasons for allowance: None of the prior art discloses a three-dimensional measurement method for measuring a distance to a plurality of positions on an object by projecting light and receiving light reflected from the object, said three-dimensional measurement method comprising: controlling the active/inactive timing of the area sensor such that an electric charge photoelectrically converted by the plurality of photoelectric conversion elements is accumulated with a timing synchronously with the light projection wherein changing said active/inactive states of the area sensor is performed a plurality of times in one accumulating period of the area sensor. Claims 2-5 are dependent on claim 1, thus are allowable for the same reason. Claim 6 is similar to claim 1 in that it discloses that the ON/OFF states of the controllers are activated a plurality of time in one accumulating period of the area sensor and a processor for eliminating the fluctuating component of the light intensity based on the control by use of at least two frame images. Claims 7-9 are dependent on claim 6 and thus are allowable for the same reasons. Claims 22, 23, and 26 are similar to claims 1 and 6 thus are allowable for the same reasons given for claim 1. Claims 10, 21,24, and 27 are dependent on allowable claims thus are allowable for the same reasons.

Art Unit: 2625

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
